Machined and hand finished in solid brass, each cylindrical lamp houses a hidden reservoir of oil to fuel the cotton wick at its center. The polished spherical basin softly reflects the flickering light, echoing the luminary extent of the flame.

Finish Polished

Care

We find beauty in the marks of unique character, subtle variations of grain, figure, and texture inherent in materials that deepen through use and patinate over time.

Brass: The lamps can be semi-regularly polished with any brass cleaning agent to recover its original shiny gold look. However, we recommend it be left to age naturally.
