## Care

We find beauty in the marks of unique character, subtle variations of grain, figure, and texture inherent in materials that deepen through use and patinate over time.

**Sealed wood:** Wipe regularly with a dry cotton cloth. Clean as required with a wood-specific mild detergent.

**Oiled wood:** Wipe regularly with a dry cotton cloth. Clean as required with a mild detergent specific for wood. Periodically apply a generous coat of coconut oil with a clean cotton cloth, let it soak in for an hour, then wipe off the excess with a clean cotton cloth.

**Stone:** Being slightly porous, it requires simple wiping with a clean cloth.
